

Early Math Needs a Rule of Thumb

@KentHaines

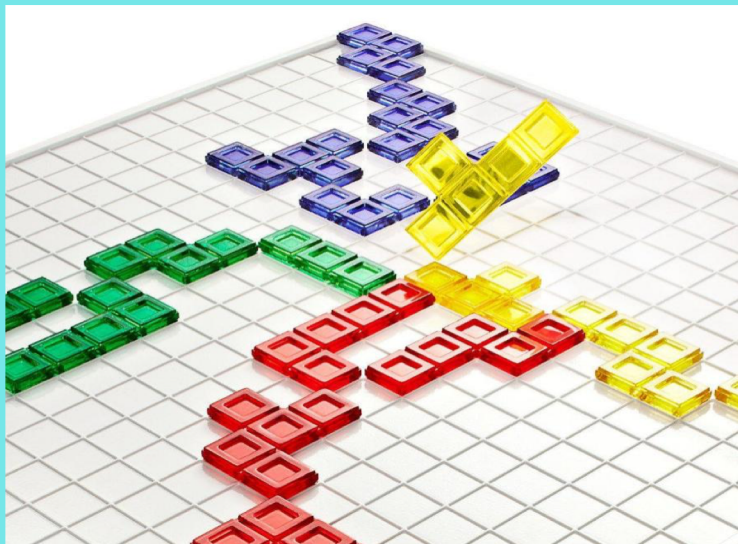

“Read to your kids
for 20 minutes
every night”

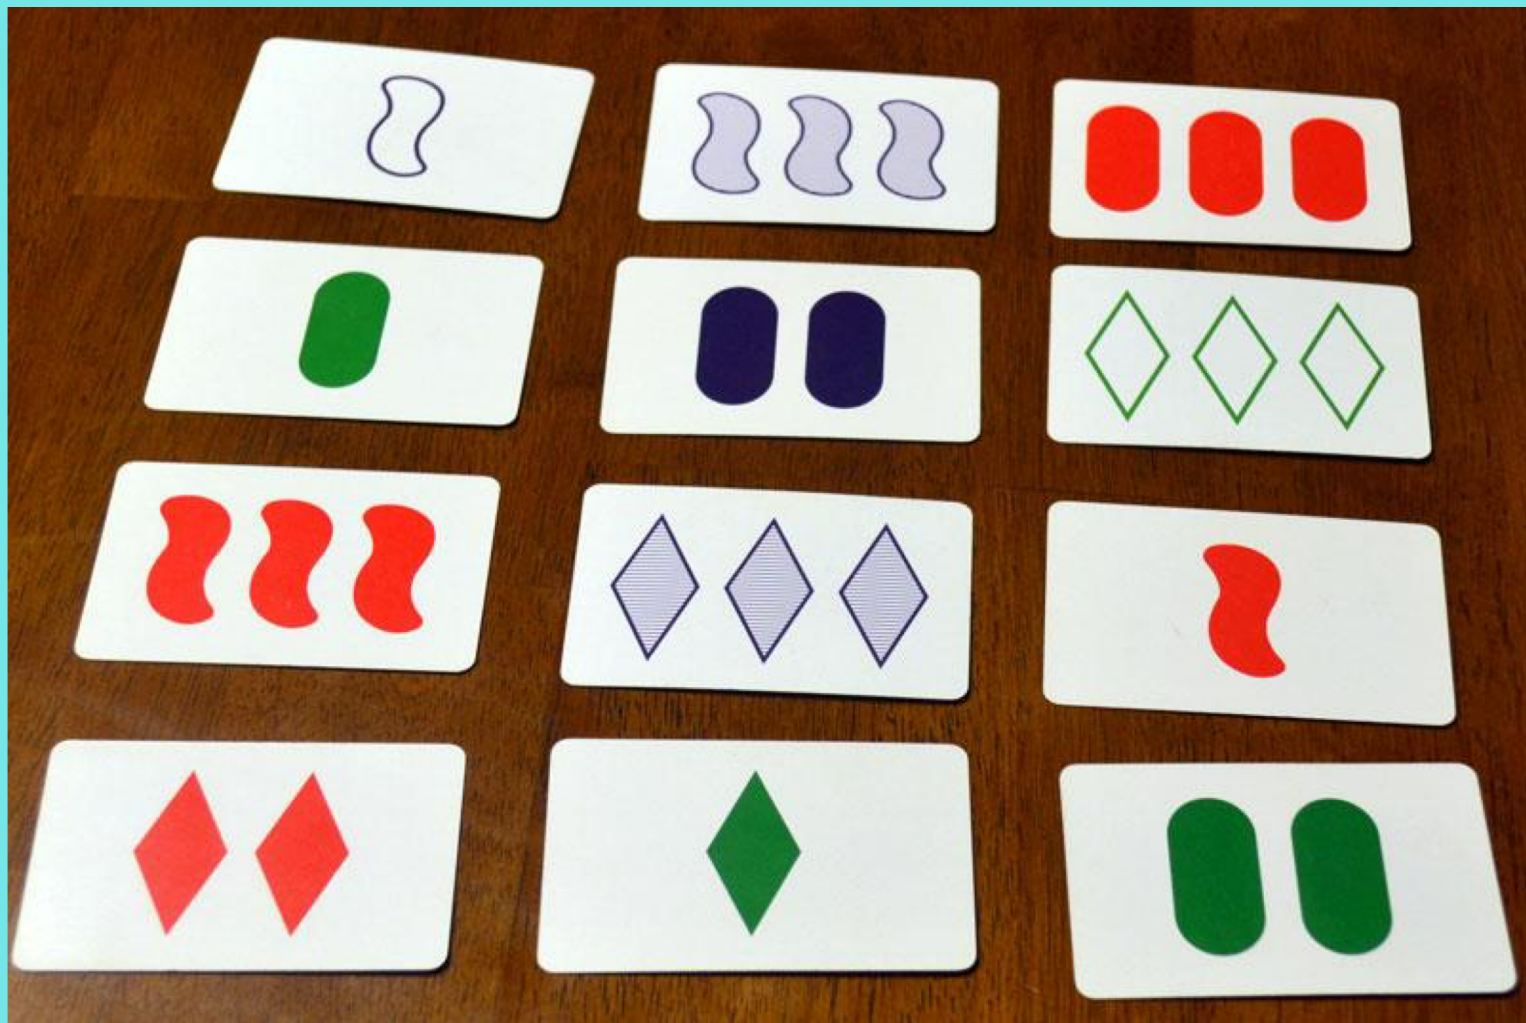

“Read to your kids for 20 minutes every night”

- Helps kids interact with reading
- Requires no expertise from parents
- It's fun!

What is the rule of thumb
for early math?

“Play games
and ask questions”

$$3 + 5$$

Ask questions:

- What do you hope to roll?
- What is my plan, and how can you stop me?
- Is it better to go first or second?
- Are there any spots on the board that are most important to winning?
