

# Implementation Science – A Framework

Source: Adapted from Maxwell and Richman (2018, 2019) by Mathematica.

# Intervention readiness conditions

## Well-specified intervention

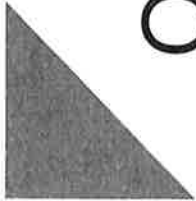

- Project documentation and manual
- Content and service delivery strategies
- Staffing guidelines
- Standards for assessing fidelity

## Well-defined target population

- Population
- Setting

## Implementation supports in place

- Implementation support team
- Communication to support coordination
- Staff training requirements
- Staff supervision requirements
- Fidelity monitoring
- Data to support decision making

# Organizational readiness conditions
